

# MP BRILLANCE

**20 - 0 - 0 + 6Fe + 1Mg**

Extended Greening & Vitality of Managed Turf

## 5 UNIQUE FEATURES

- Stabilised liquid nitrogen + iron package
- High analysis combination for quick green up
- Long lasting colour for quality appearance
- Enhanced vigour and health of quality turf surfaces
- Magnesium included to optimise chlorophyll production

## TECHNOLOGY

Based around a stabilised form of Nitrogen, this product extends the period of feeding from a single application by moderating the activity of enzymes that deplete Nitrogen in soil. By gently metering the Nitrogen as turf requires it, and combining this with other nutrients known to enhance the production of chlorophyll in leaves, nutrient use is optimised and deep green growth occurs without softness or surging.

### APPLICATION RATES

On greens and fine cut turf.	200-500 mL /100m <sup>2</sup>
Fairways and higher cut turf.	20-50 L/ha

### Spray Volumes

On greens and fine cut turf.	6-10 L /100m <sup>2</sup>
Fairways and higher cut turf.	400-1000 L/ha

## GUARANTEED ANALYSIS W/V%

**Total Nitrogen**  
As stabilised Urea 20%

**Total Iron**  
As Sulphate 6%

**Total Magnesium**  
As Sulphate 1%
